Technology Advisory Committee

Meeting Minutes

October 14, 2010

The Technology Advisory Committee met on October 14, 2010, in City Hall, Council Chambers.

I. Call to Order

The meeting was called to order at 10:30 a.m.

II. Roll Call

_x_ Chris Price – Chair	___ Kent Anderson	___ Oakel Hardy
_x_ Mike Jamerson	_x_ Mark McHolland	___ Georgia Miller
_x_ Audrey Tyree	_x_ Jim Hartsook	

Invited Guests:

Other Attendees:
Brent Engle, Community IT Executive
Stan Gamso, Counsel
Andrew Brelage, Smithville Digital

III. Review of minutes from September 9, 2010 meeting.

There was no discussion. Mike moved and Mark seconded a motion to approve same. Following a unanimous voice vote, the minutes were approved.

IV. Continuing Business

a) Invoice Review

Counsel's invoice for services was presented for consideration and approval. There being no discussion, Mike moved to approve and Chris seconded. Following voice vote, the invoice was approved unanimously for payment.

b) Audit Update – M. Jamerson/M. McHolland

Mark McHolland agreed to take over the responsibilities for the audit update. Mark reported that a subcommittee needed to determine the level of detail that the audit should involve. In addition, Mr. Fleetwood at Blue & Co. suggested that the depth of detail might also be something that the Committee should consider exploring. There was general discussion among the Committee members, and the conclusion was that the audit should commence with the information provided by Smithville, and that the Committee should reserve the opportunity to delve deeper into the audit based upon any information either needed or suggested by the audit.

Mark will attempt to schedule a meeting with Mr. Fleetwood at Blue & Co. and Smithville and provide a report at the next scheduled meeting.

c) Smithville Update – Andrew Brelage

Andrew presented the monthly check from Smithville to the City of Columbus.

In addition, Andrew also provided a two-page handout, one of which is the Smithville fiber map for the City of Columbus and the proposed handhole final inspection list, attached as Exhibit A to these meeting minutes.

Andrew reported that Smithville had four new contracts signed last month. The contracting parties are Foundation For Youth and three additional locations for Columbus Regional Hospital. At present he has six proposals in the hands of prospective customers and believes four of those will ultimately lead to executed contracts. On October 13th, he submitted three additional proposals to three more prospective customers.

Smithville is currently in the process of testing calls for their new voice product, and Andrew reported that is working well. As an aside, he reported they received five calls last month from individuals requesting residential services. Smithville is not currently offering residential services for the city of Columbus.

Smithville currently has splicing crews in town to finish work connecting the various city buildings. There is presently a delay connecting one of the Columbus City Fire Department facilities because the operator of the existing cable uses a specific cable splicer from the Indianapolis area, and that company has yet to come to Columbus to complete their work. Once their work is completed, Smithville can finalize that connection.

d) City IT Update – B. Engle

Brent reported that the City is currently working with TLS on the website design, and they expect to have the home page finalized yet this week with a goal of finalization of the entire website redesign by mid-December of this year.

The RFP for the City telephone system is presently closed and the City has been engaging in extensive vendor interviews. The goal is to have a completed interview process, execution of contract, and installation of a phone system by year end. Brent reported that he believes they will be able to go to the Board of Works with a proposal for vendor selection shortly.

e) Strategic Plan Update – B. Engle

Brent reported that after the last TAC meeting, the strategic plan was presented to the mayor for his review and feedback and for review by the various departments. The mayor was pleased with the strategic plan and the process to date and was very complimentary of the TAC and Brent's work. The mayor suggested that the next step in the process should be to meet with individual City Council members and to provide a brief overview and key summary of the strategic plan. Chris reported he would take the lead in scheduling meetings with various Committee members and also asked for Committee volunteers to participate in the strategic plan presentation to the various Committee members. Chris also suggested that the TAC give consideration to meeting with either the County Council or the County Data Board and present the strategic plan accordingly for their consideration.

f) Update on GCCS Expansion – B. Engle

Brent reported that the subcommittee met with Smithville and discussed the couple of areas for further expansion which are: U.S. 31 into Progress Park and down State Road U.S. 31 to Taylor Road. Smithville apparently has had some discussions with the Indiana Department of Transportation which is waiting some additional feedback from INDOT regarding access to State Road 31 before further discussions between the TAC and Smithville can continue.

V. New Business

The next scheduled monthly meeting will be November 10th, 2010 at 10:30 a.m.

VI. Call for Public Comments

There were none.

VII. Adjournment

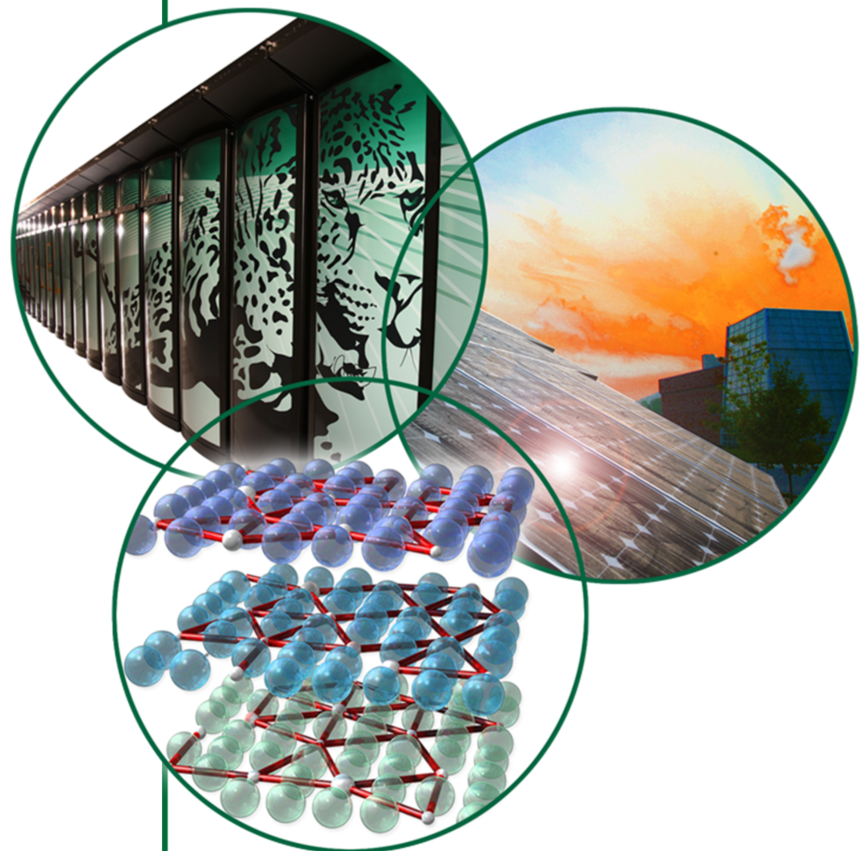
There being no further business the meeting was adjourned at 11:10 a.m

Submitted by

Stanley A. Gamso, Counsel

Mercury Chamber Considerations

V. Graves



IDS-NF Target Studies

July 2011

U.S. DEPARTMENT OF ENERGY

OAK RIDGE NATIONAL LABORATORY
MANAGED BY UT-BATTELLE FOR THE DEPARTMENT OF ENERGY

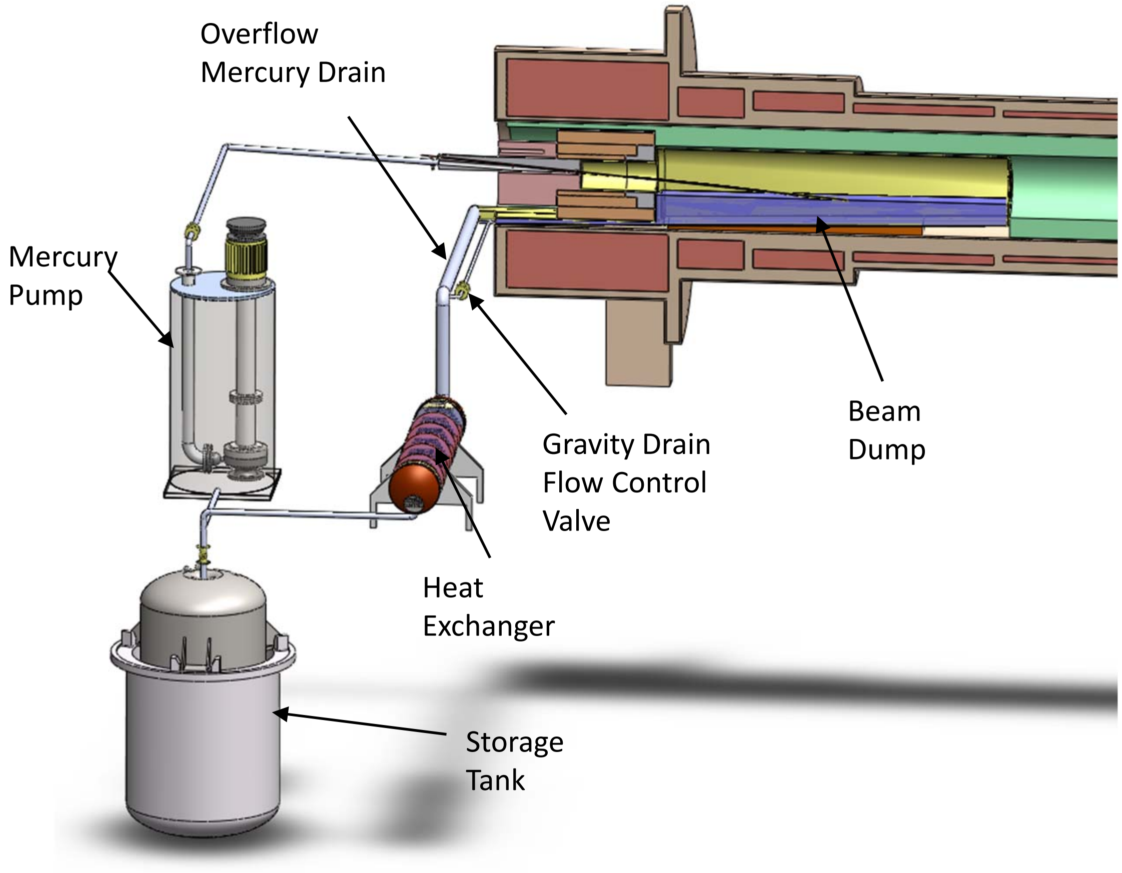
Flow Loop Review

- 1 cm dia nozzle, 20 m/s jet requires 1.57 liter/sec mercury flow (94.2 liter/min, 24.9 gpm).
- MERIT experiment showed that a pump discharge pressure of ~40 bar required to produce the desired jet.
- Basic flow scheme

Pump → Nozzle → Jet/Beam Dump → Heat Exchanger → Pump

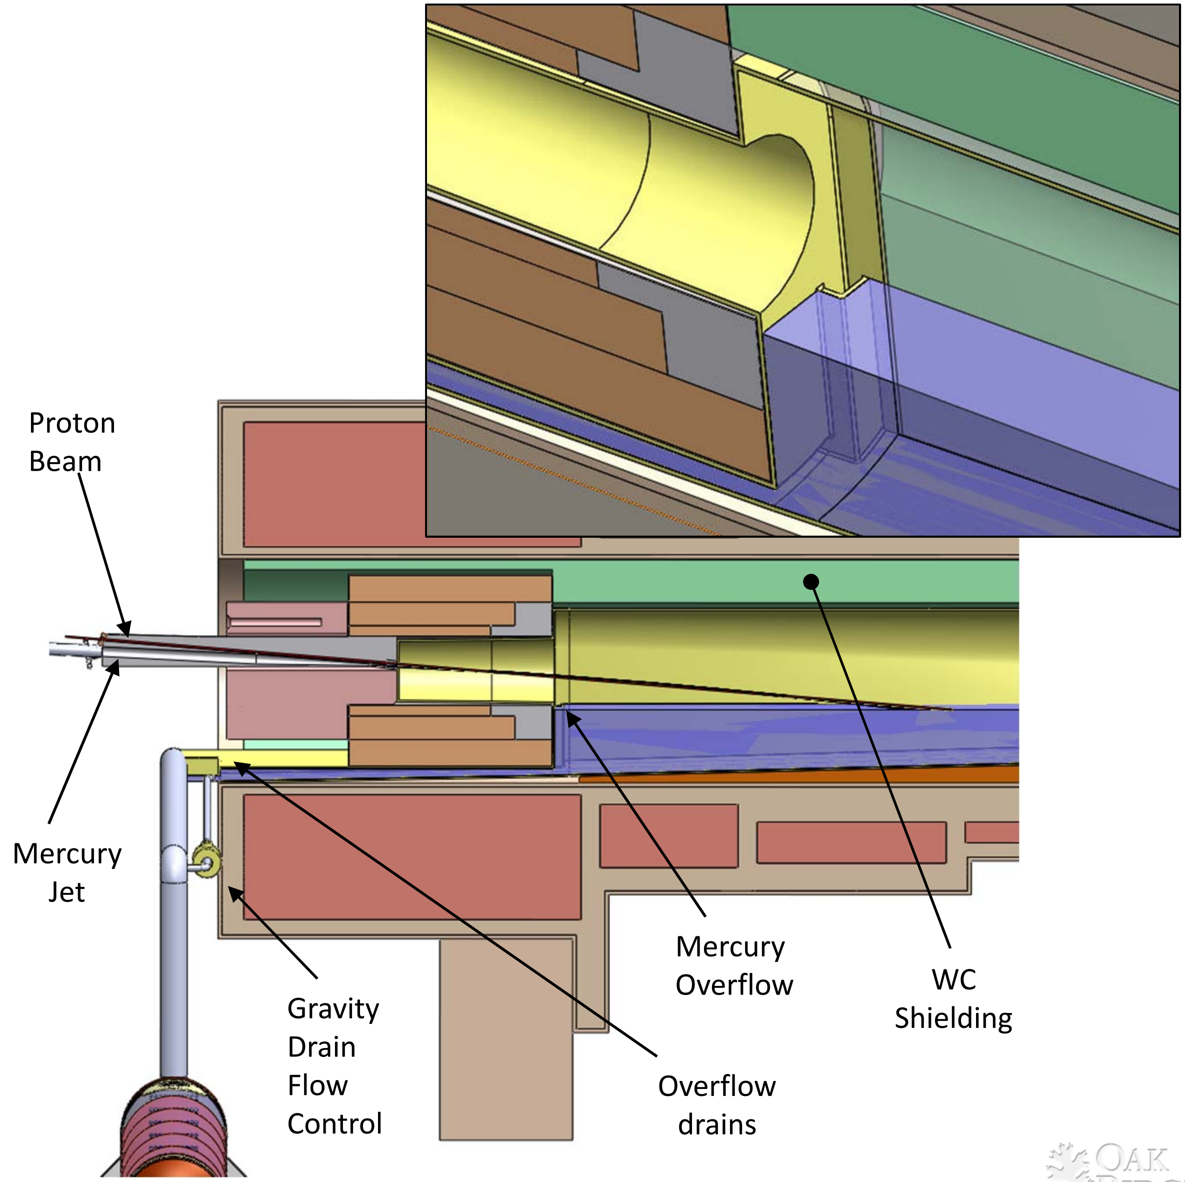
Hg Flow

- Minimize pressure drops through piping by increasing diameter
  - 2" nozzle supply piping transitioning to 1 cm nozzle



Gravity Drain Requires Flow Control

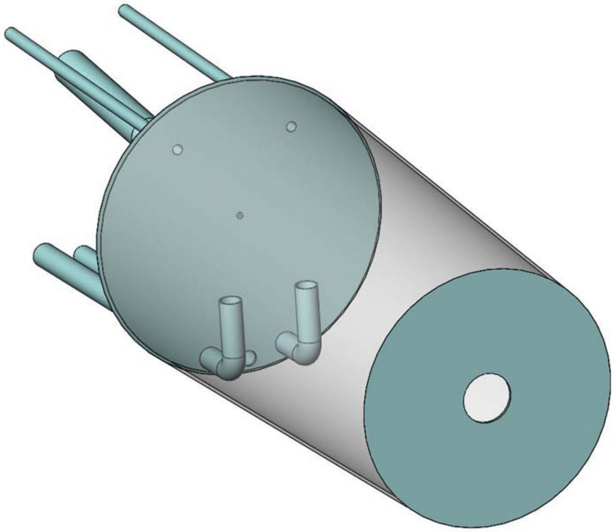
- Bulk flow exits dump via overflow drains
- Gravity drain intended to remain closed until end-of run, but this liquid becomes static
- Decay heating requires gravity drain to have flow control



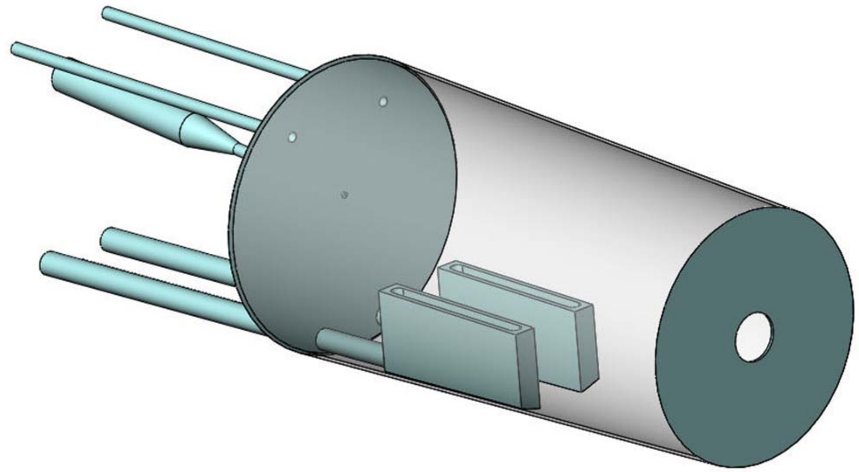
Mercury Chamber Basics

- Chamber serves as both jet and beam dumps
  - Chamber must encompass the nozzle tip
- No openings into chamber during operation
  - Mercury flows in a closed loop
  - Likely will be double-walled for mercury containment, possibly water cooled
- No embedded sensors
- Gravity drain of mercury required
- Penetrations (ports) into chamber
  - Nozzle
  - Hg drains (overflow and maintenance)
  - Vents (in and out)
  - Beam windows (upstream and downstream)
  - Cooling?

Simple Chamber – Overflow Drain Options

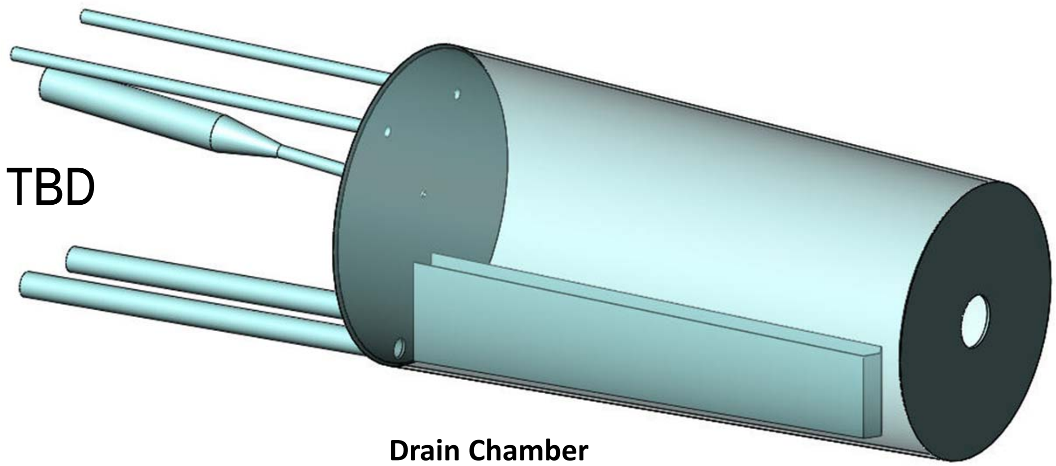


Drain Pipes



Drain Slots

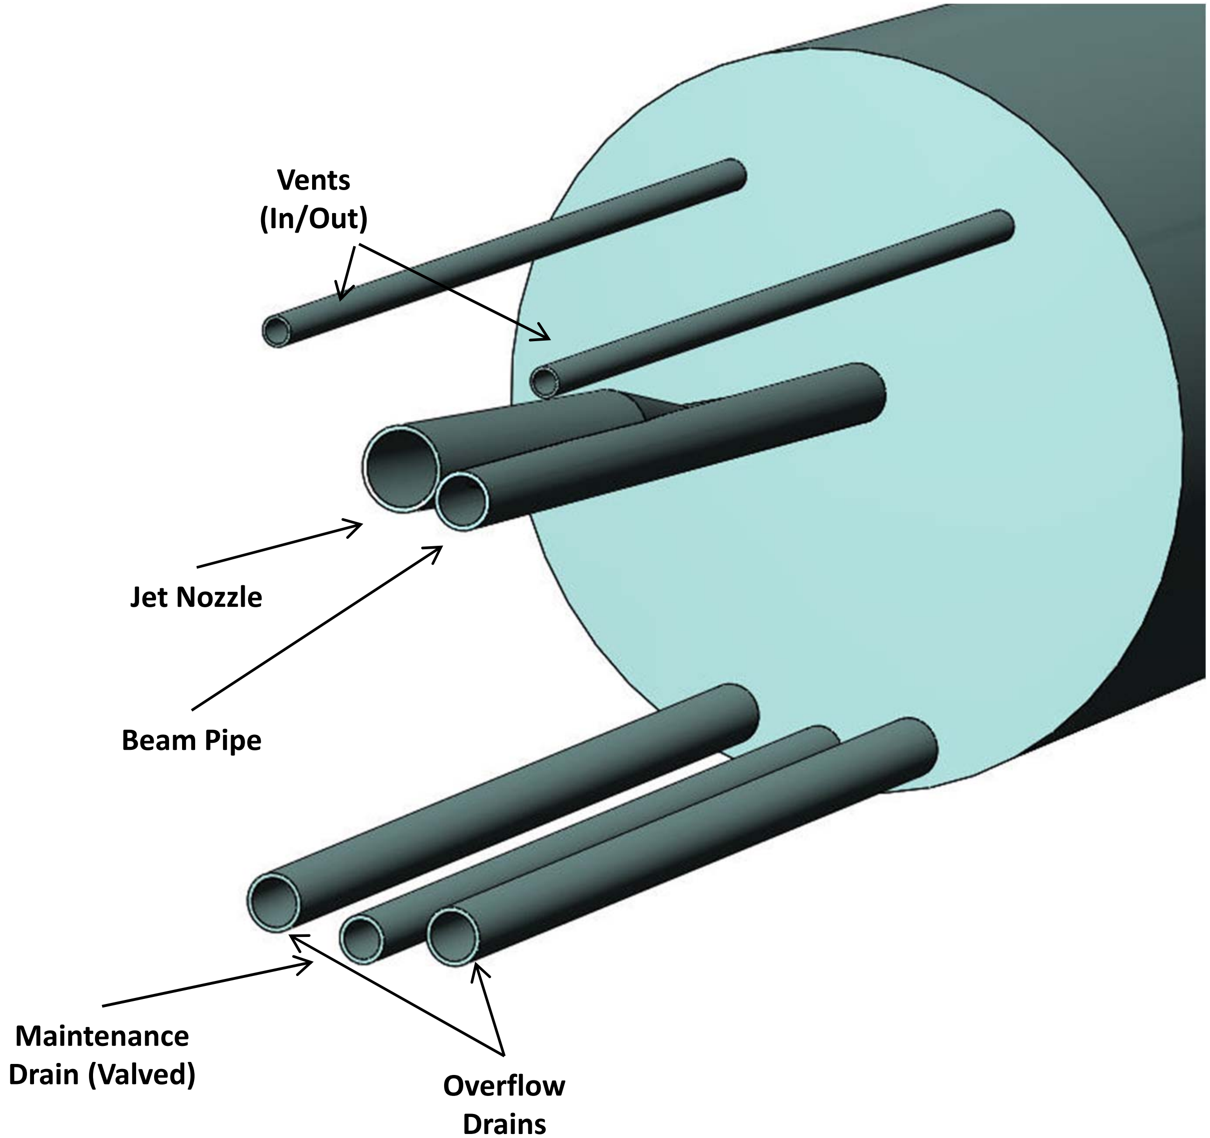
- Splash mitigation not shown
- Size of drainage system outlets TBD



Drain Chamber

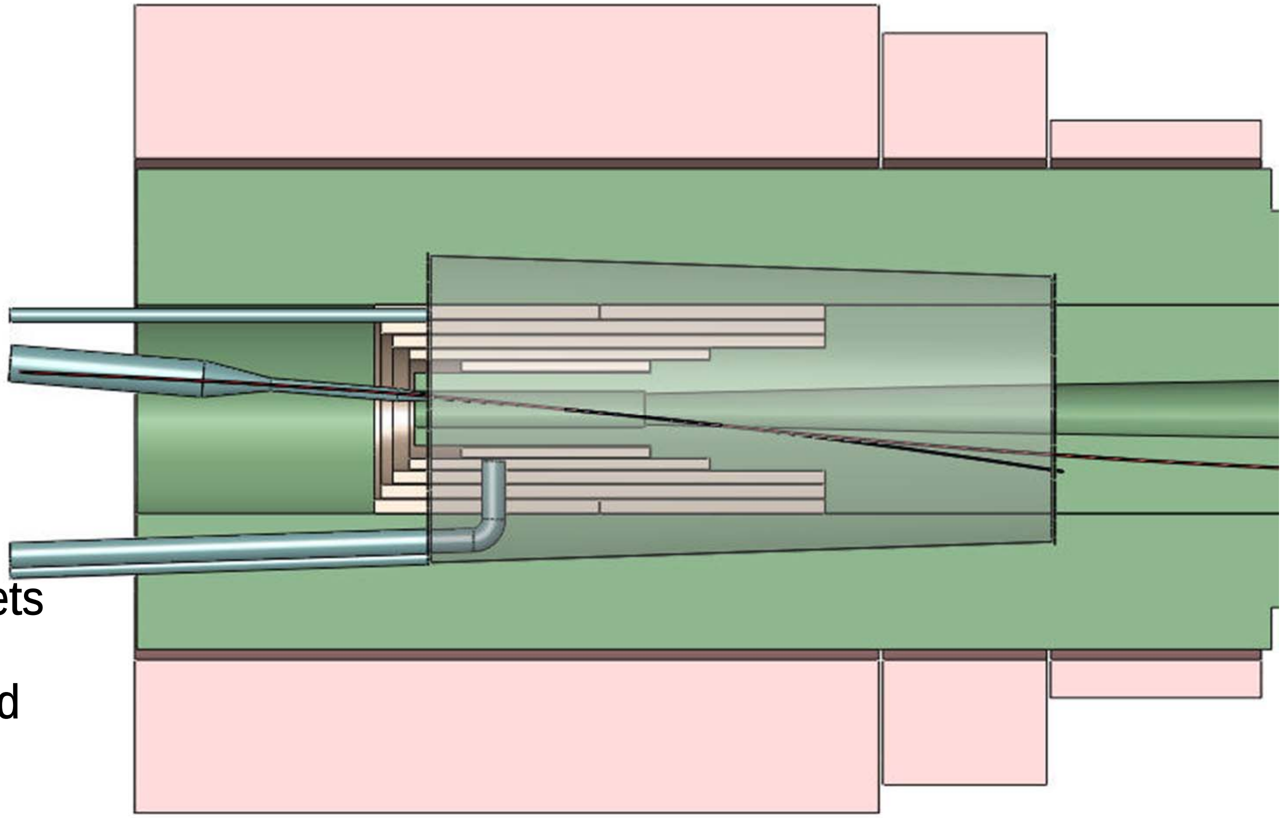
Mercury Chamber Ports

- Chamber requires several ports
- Sizes likely to increase due to remote handling requirements



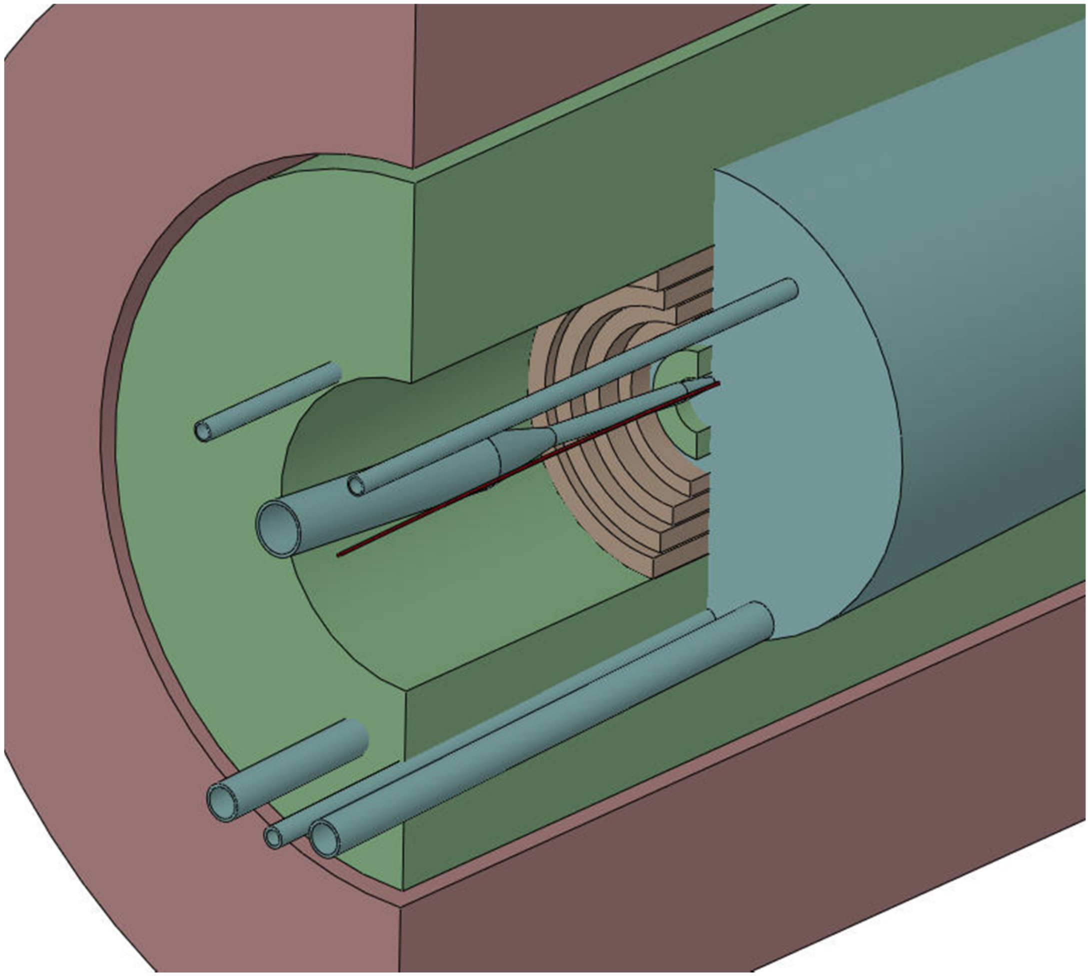
Chamber Relative to Existing Coils

- Sized to locate drain pipes below resistive magnets
- No beam pipe shown
- Severely impacts tungsten shielding
- Chamber shape requires significant increase in complexity
- Integrating resistive magnets and chamber into a single module likely to be required



Upstream Solenoids Affect Design

- Long piping required
- Remote removal / insertion more difficult
- Beam trajectory impacted
  - Dictates the location of upstream accelerator
  - Ramifications of inaccurate field map?
- More utility connections interfere with beam path



BEFORE THE TAX COMMISSION OF THE STATE OF IDAHO

In the Matter of the Protest of	)	
	)	DOCKET NO. 16003
[REDACTED],	)	
	)	DECISION
Petitioner.	)	
	)	

On August 7, 2001, the Tax Discovery Bureau (Bureau) of the Idaho State Tax Commission issued a Notice of Deficiency Determination to [Redacted] (taxpayer), proposing income tax, penalty, and interest for 1996 and 1997 in the total amount of $4,793.

The taxpayer filed a timely appeal. He did not request a hearing, but he submitted additional information. The Tax Commission, having reviewed the file, hereby issues its decision based upon the information contained in the file.

Because Tax Commission records showed the taxpayer had not filed Idaho resident income tax returns for the years 1996 and 1997, the Bureau conducted research to verify the taxpayer's residency and filing requirement. The taxpayer's residency was confirmed and Idaho source income was identified for each year.

[Redacted]. [Redacted]. [Redacted].

Idaho Code § 63-3045 (1)(a) states:

> **63-3045. Notice of redetermination or deficiency -- Interest.** (1) (a) If, in the case of any taxpayer, the state tax commission determines that there is a deficiency in respect of the tax imposed by this title, the state tax commission shall, immediately upon discovery thereof, send notice of such deficiency to the taxpayer by registered or certified mail or by other commercial delivery service providing proof of delivery, whichever is the most cost efficient. The notice shall be sent to the taxpayer's last address known to the state tax commission. The notice of deficiency shall be accompanied by an explanation of the specific reason for the determination and an explanation of the taxpayer's right to appeal.

> Within sixty-three (63) days after such notice is mailed, the taxpayer may, at his option, file a protest in writing with the state tax commission and obtain redetermination of the deficiency.

The taxpayer did not respond to correspondence. Therefore, the Bureau issued a Notice of Deficiency Determination. In response to the notice, the taxpayer sent a letter of appeal. He said he was disputing the determination because he was married and had two minor children living with him during both of the years at issue. He included a date of birth and a social security number for his wife and each child. In addition, he said the actual 1997 income amount was less than the amount the Bureau used to determine the Idaho tax due for that year. The taxpayer furnished no further information.

The Bureau expanded its research to determine the accuracy of the taxpayer's claims. Because the information provided by the taxpayer appeared to be more accurate than the information used to prepare the deficiency notice, the Bureau sent the taxpayer a revised determination. The amended determination did not include a deficiency for 1997 because the new computation resulted in no tax due. The Bureau advised the taxpayer the determination of a deficiency for 1997 was canceled and asked him to accept the revised amounts for 1996. The taxpayer did not respond and his file was transferred to the Legal/Tax Policy Division for administrative review.

On April 12, 2002, the Tax Commission received the taxpayer's Idaho returns for the years 1997, 1998, and 1999 along with a letter that was signed by the taxpayer. In the letter, the taxpayer said he had decided to withdraw his protest regarding the 1996 tax year and accept the Bureau's revised determination of tax due.

Secondly, the taxpayer asked to have the refund shown in his 1997 Idaho return applied against his 1996 liability. He said he was not aware of a statute that allows a taxing authority to withhold refunds while continuing to collect taxes beyond a specific time frame.

Idaho Code limits the time allowed for a refund to be credited or refunded. Idaho Code § 63-3072(c) states:

> **Idaho Code § 63-3072. Credits and Refunds. . . .** (c) Except as provided in subsection (e) of section 63-3035, Idaho Code, a claim for credit or refund of tax, penalties, or interest paid shall be made within the later of three (3) years of the due date of the return, without regard to extensions, or three (3) years from the date the return was filed. However, with regard to remittances received with an extension of time to file, or a tentative return, a claim for credit or refund of such remittances shall be made within three (3) years from the due date of the return without regard to extensions.

Idaho Code § 63-3035(e) limits the time for an employee to claim a credit or refund of monies that have been deducted from wages as follows:

> **Idaho Code § 63-3035. . . .**(e) Amounts deducted from wages of an employee during any calendar year in accordance with the provisions of this section shall be considered to be in part payment of the tax imposed on such employee for his tax year which begins within such calendar year and the return made by the employer under this subsection (e) shall be accepted by the state tax commission as evidence in favor of the employee of the amount so deducted from his wages. Where the total amount so deducted exceeds the amount of tax on the employee, based on his Idaho taxable income, or where his income is not taxable under this act, the state tax commission shall, after examining the annual return filed by the employee in accordance with this act, but not later than sixty (60) days after the filing of each return, refund the amount of the excess deducted. <u>**No credit or refund shall be made to an employee who fails to file his return, as required under this act, within three (3) years from the due date of the return, without regard to extensions, in respect of which the tax withheld might have been credited.**</u> In the event that the excess tax deducted is less than one dollar ($1.00), no refund shall be made unless specifically requested by the taxpayer at the time such return is filed. (Emphasis added.)

Idaho Code § 63-3032 defines the due date of Idaho income tax returns:

> **Idaho Code § 63-3032. Time for filing income tax returns.** (1) Except as provided in section 63-3033, Idaho Code:
>
> > (a) Returns made on the basis of the calendar year shall be filed in the office of the Idaho state tax commission on or before the 15th day of April following the close of the

> calendar year and returns made on the basis of a fiscal year shall be filed in the office of the Idaho state tax commission on or before the 15th day of the fourth month following the close of the fiscal year.

The taxpayer had a requirement to file an Idaho individual income tax return for both 1996 and 1997. He did not file either return in a timely manner as required by Idaho Code. In fact, he did not file the 1997 return until April 12, 2002, long after the Bureau contacted him. He did not complete and file a return for 1996. Rather, the taxpayer accepted the Bureau's determination for that year.

The taxpayer's request for a credit or refund of the amount shown as a refund in the 1997 Idaho income tax return the taxpayer submitted for filing with the Tax Commission on April 12, 2002, is denied.

WHEREFORE, the Notice of Deficiency Determination dated August 7, 2001, is hereby MODIFIED, and as so modified, is APPROVED, AFFIRMED, and MADE FINAL.

IT IS ORDERED and THIS DOES ORDER that the taxpayer pay the following tax, penalty, and interest.

YEAR	TAX	PENALTY	INTEREST	TOTAL
1996	$291	$73	$116	$480
1997	0	0	0	0
			TOTAL DUE	$480

Interest is computed through May 1, 2002.

DEMAND for immediate payment of the foregoing amount is hereby made and given.

An explanation of taxpayer's right to appeal this decision is enclosed with this decision.

DATED this _____ day of ________________, 2002.

IDAHO STATE TAX COMMISSION

____
COMMISSIONER

CERTIFICATE OF SERVICE

I hereby certify that I have on this _____ day of ___________________, 2002, served a copy of the within and foregoing DECISION by sending the same by United States mail, postage prepaid, in an envelope addressed to:

[Redacted] Receipt No. [Redacted]
[Redacted]

____
ADMINISTRATIVE ASSISTANT 1

is clear which terms the requirement applies to.

6. *Guide to model clauses.* In the model clauses, italicized words indicate the type of disclosure a credit union should insert in the space provided (for example, a credit union might insert ''March 25, 1995'' in the blank for ''(date)'' disclosure). Brackets and diagonals (''/'') indicate a credit union must choose the alternative that describes its practice (for example, [daily balance/average daily balance]).

7. *Sample forms.* The sample forms (B–4 through B–11) serve a purpose different from the model clauses. They illustrate various ways of adapting the model clauses to specific accounts. The clauses shown relate only to the specific transactions described.

[59 FR 59899, Nov. 21, 1994, as amended at 60 FR 21699, May 3, 1995; 61 FR 68129, Dec. 27, 1996; 63 FR 71575, Dec. 29, 1998]

PART 708a—CONVERSION OF INSURED CREDIT UNIONS TO MUTUAL SAVINGS BANKS

Sec.

AUTHORITY: 12 U.S.C. 1766, 12 U.S.C. 1785(b).

SOURCE: 63 FR 65535, Nov. 27, 1998, unless otherwise noted.

§ 708a.1 Definitions.

As used in this part:

(a) *Credit union* has the same meaning as insured credit union in section 101 of the Federal Credit Union Act.

(b) *Mutual savings bank* and *savings association* have the same meaning as in section 3 of the Federal Deposit Insurance Act.

(c) *Federal banking agencies* has the same meaning as in section 3 of the Federal Deposit Insurance Act.

(d) *Senior management official* means a chief executive officer, an assistant chief executive officer, a chief financial officer, and any other senior executive officer as defined by the appropriate Federal banking agency pursuant to section 32(f) of the Federal Deposit Insurance Act, 12 U.S.C. 1831i(f).

§ 708a.2 Authority to convert.

An insured credit union, with the approval of its members, may convert to a mutual savings bank or a savings association that is in mutual form without the prior approval of the NCUA, subject to applicable law governing mutual savings banks and savings associations and the other requirements of this part.

§ 708a.3 Board of directors and membership approval.

(a) The board of directors must approve a proposal to convert by majority vote and set a date for a vote on the proposal by the members of the credit union.

(b) The membership must approve the proposal to convert by the affirmative vote of a majority of those members who vote on such proposal.

§ 708a.4 Voting procedures.

(a) A member may vote on the proposal to convert in person at a special meeting held on the date set for the vote or by written ballot filed by the member.

(b) A credit union that proposes to convert must provide written notice of its intent to convert to each member who is eligible to vote on the conversion. The notice to members must be submitted 90 calendar days, 60 calendar days, and 30 calendar days before the date of the membership vote on the conversion and a ballot must be submitted not less than 30 calendar days before the date of the vote.

(c) The notice to members must adequately describe the purpose and subject matter of the vote to be taken at the special meeting or by submission of the written ballot. The notice must clearly inform the member that the member may vote at the special meeting or by submitting the written ballot. The notice must state the date, time, and place of the meeting.
