

and (10) the contact information of an agency official familiar with the proposal and the OMB Desk Officer for the Department.

This notice also lists the following information:

Title of Proposal: Request for Construction Change.

OMB Approval Number: 2502-0011.

Form Numbers: HUD-92437, HUD-92441, HUD-92442, HUD-92442-A, HUD-92442-CA, HUD-92442-A-CA.

Description of the Need for the Information and Its Proposed Use: This is a request for reinstatement of the approval to collect the subject information. The information is submitted by contractors and architects

through mortgagees/lenders to obtain approval of proposed changes to previously approved contract drawings and/or specifications.

Respondents: Business or other for-profit, Not-for-profit institutions.

Frequency of Submission: On occasion.

Reporting Burden:

Number of respondents	Annual responses	×	Hours per response	=	Burden hours
900	5		4.6		20,700

Total Estimated Burden Hours: 20,700.

Status: Reinstatement, without change, of previously approved collection

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: February 3, 2004.

Wayne Eddins,

*Departmental Reports Management Officer,
Office of the Chief Information Officer.*

BILLING CODE 4210-72-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4800-FA-04]

Announcement of Funding Awards for the Assisted Living Conversion Program Fiscal Year 2003

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of funding awards.

SUMMARY: In accordance with section 102 (a)(4)(C) of the Department of Housing and Urban Development

Reform Act of 1989, this announcement notifies the public of funding decisions made by the Department in a competition for funding under the Super Notice of Funding Availability (SuperNOFA) for the Assisted Living Conversion Program. This announcement contains the names of the awardees and the amounts of the awards made available by HUD.

FOR FURTHER INFORMATION CONTACT:

Willie Spearmon, Director, Office of Housing Assistance and Grant Administration, 451 7th Street, SW., Washington, DC 20410-8000; telephone (202) 708-3000 (this is not a toll-free number). Hearing- and speech-impaired persons may access this number via TTY by calling the Federal Relay Service toll-free at 1-800-877-8339. For general information on this and other HUD programs, visit the HUD Web site at <http://www.hud.gov>.

SUPPLEMENTARY INFORMATION: The Assisted Living Conversion Program is authorized by Section 202(b) of the Housing Act of 1959 (12 U.S.C. 1701q-2). The competition was announced in the SuperNOFA published in the **Federal Register** on April 25, 2003 (68 FR 21793). Applications were rated and selected for funding on the basis of

selection criteria contained in that Notice.

The Catalog of Federal Domestic Assistance number for this program is 14.314.

The Assisted Living Conversion Program is designed to provide funds to private nonprofit owners to convert their projects (that is, projects funded under Section 202, Section 8 project-based (including Rural Housing Services' Section 515), Section 221(d)(3) BMIR, Section 236, and unused and underutilized commercial properties) to assisted living facilities. Grant funds are used to convert the units and related space for the assisted living facility.

A total of \$15,371,991 was awarded to nine projects for 178 units nationwide. In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is publishing the grantees and amounts of the awards in Appendix A of this document.

Dated: February 19, 2004.

John C. Weicher,

Assistant Secretary for Housing-Federal Housing Commissioner.

Appendix A

FY2003 GRANTEES FOR THE ASSISTED LIVING CONVERSION PROGRAM

Grantees	Amount
Lutheran Senior, 1201 N. Harrison St., Wilmington, DE 19806	\$2,709,721.00
Immanuel House, 15 Woodland Street, Hartford, CT 06105	408,850.00
The Bernardine, 700 East Brighton, Syracuse, NY 13205	1,087,987.00
Allamakee Housing Inc., 607 2nd St. SW, Waukon, IA 52172	1,217,714.00
Mercy Manor Inc., 334 Golf View Drive, Albany, MN 56307	1,169,465.00
New Hope Volunteers, 1660 Duke Street, Alexandria, VA 22314	1,568,208.00
Kivel Manor, 3020 North 36th Street, Phoenix, AZ 85018	3,540,574.00
Menorah Plaza Housing, 4925 Minnetonka Blvd, St. Louis Park, MN 55416	1,391,850.00
Jewish Apartments, 15100 West Ten Mile, Oak Park, MI 48237	2,277,622.00

BILLING CODE 4210-27-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4922-N-01]

Privacy Act of 1974; Notice of Matching Program: Matching Tenant Data in Assisted Housing Programs

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice of a computer matching program between the Department of Housing and Urban Development (HUD) and the Social Security Administration (SSA) and the Internal Revenue Service (IRS).

SUMMARY: Pursuant to the Computer Matching and Privacy Protection Act of 1988, as amended, and the Office of Management and Budget's (OMB) Guidance on the statute, HUD is updating its notice of a matching program involving comparisons between income data provided by applicants or participants in HUD's assisted housing programs and independent sources of income information. The matching program will be carried out to detect inappropriate (excessive or insufficient) housing assistance under the National Housing Act, the United States Housing Act of 1937, section 101 of the Housing and Community Development Act of 1965, the Native American Housing Assistance and Self-Determination Act of 1996, and the Quality Housing and Work Responsibility Act of 1998. The program provides for the verification of the matching results and the initiation of appropriate administrative or legal actions, primarily through public housing agencies (HAs) and owners and agents (all collectively referred to as POAs). Indian tribes and tribally designated housing entities (TDHEs) are not a mandatory component of the computer matching program. Participation by Indian tribes and TDHEs is discretionary; however, they may receive and use social security and supplemental security income matching information provided by HUD.

This notice provides an overview of computer matching for HUD's assisted housing programs. Specifically, the notice describes HUD's program for computer matching of its tenant data to: (a) The SSA's earned income and the IRS's unearned income data, (b) SSA's wage, social security, supplemental security income and special veterans benefits data, (c) State Wage Information Collection Agencies' (SWICAs') wage

and unemployment benefit claim information, and (d) the Office of Personnel Management's (OPM) personnel data.

DATES: *Effective Date:* Computer matching is expected to begin on April 8, 2004, unless comments are received which will result in a contrary determination, or 40 days from the date a computer matching agreement is signed, whichever is later.

Comments Due Date: April 8, 2004.

ADDRESSES: Interested persons are invited to submit comments regarding this notice to the Rules Docket Clerk, Office of General Counsel, Room 10276, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410-0500.

Communications should refer to the above docket number and title.

Facsimile (FAX) comments are not acceptable. A copy of each communication submitted will be available for public inspection and copying between 7:30 a.m. and 5:30 p.m. weekdays at the above address.

FOR FURTHER INFORMATION CONTACT: *For Privacy Act:* Jeanette Smith, Departmental Privacy Act Officer, Room P8001, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, DC 20410, telephone number (202) 708-2374. A telecommunications device for hearing- and speech-impaired individuals (TTY) is available at 1-800-877-8339 (Federal Information Relay Service).

For further information from recipient agency: Elking Tarver, Project Manager, Tenant Assessment Sub-System, Real Estate Assessment Center, Department of Housing and Urban Development, 1280 Maryland Avenue, SW., Suite 800, Washington, DC 20024-2635, telephone number (202) 708-4932, extension 3235.

SUPPLEMENTARY INFORMATION: This notice supersedes a similar notice published in the **Federal Register** on May 5, 2003 (68 FR 23753). Since that time, the matching program has been implemented on a large scale. In previous years, the computer matching was carried out for random samples of households receiving rental assistance or for selected POAs. During calendar year 1999, HUD used the matching program for a large-scale computer matching project involving over 2 million households. HUD announced plans for the large-scale implementation of the program in 64 FR 49817 (September 14, 1999).

The Computer Matching and Privacy Protection Act (CMPPA) of 1988, an amendment to the Privacy Act of 1974 (5 U.S.C. 552a), OMB's guidance on this statute entitled "Final Guidance

Interpreting the Provisions of Public Law 100-503, the CMPPA of 1988" (OMB Guidance), and OMB Circular No. A-130 requires publication of notices of computer matching programs. Appendix I to OMB's Revision of Circular No. A-130, "Transmittal Memorandum No. 4," Management of Federal Information Resources," prescribes Federal agency responsibilities for maintaining records about individuals. In with the CMPPA and Appendix I to OMB Circular No. A-130, copies of this notice are being provided to the Committee on Government Reform and Oversight of the House of Representatives, the Committee on Governmental Affairs of the Senate, and OMB's Office of Information and Regulatory Affairs.

I. Authority

This matching program is being conducted pursuant to sections 3003 and 13403 of the Omnibus Budget Reconciliation Act of 1993 (Pub. L. 103-66, approved August 10, 1993); section 542(b) of the 1998 Appropriations Act (Pub. L. 105-65); section 904 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 (42 U.S.C. 3544); section 165 of the Housing and Community Development Act of 1987 (42 U.S.C. 3543); the National Housing Act (12 U.S.C. 1701-1750g); the United States Housing Act of 1937 (42 U.S.C. 1437-1437z); section 101 of the Housing and Community Development Act of 1965 (12 U.S.C. 1701s); the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 *et seq.*); and the Quality Housing and Work Responsibility Act of 1998 (42 U.S.C. 1437a(f)).

The Omnibus Budget Reconciliation Act of 1993 (Budget Reconciliation Act) authorizes HUD to request from the SSA and the IRS Federal tax information as prescribed in section 6103(l)(7) of title 26 of the United States Code (Internal Revenue Code). Section 542(b) of HUD's 1998 Appropriation Act (Pub. L. 105-65; October 27, 1997) eliminated a September 30, 1998, sunset provision to 26 U.S.C. 6103(l)(7)(D)(ix) of the Internal Revenue Code, effectively making permanent the authority for SSA and IRS disclosures of federal tax information to HUD.

The Federal tax information that HUD receives includes income data that individuals receive from employers and financial institutions (e.g., income data that would be shown on IRS Form W-2 and Form 1099) for use in preparing tax returns. The Budget Reconciliation Act prohibits HUD redisclosure of tax data to POAs. However, it allows HUD to disclose the fact that discrepancies

Wireless Communication Collocation Site Plan Type I Review

Handout #74-C Revised: 1/8/09

What types of projects are subject to a Type I Review Process?

Collocation of wireless communication facilities that are located in Industrial or Forest zone districts in the Rural area or Commercial districts in the Urban Growth Area are subject to Type I Review requirements. Type I projects are exempt from the State Environmental Policy Act (SEPA) review and subject to clear, objective and non-discretionary standards requiring professional judgement about technical issues.

Type I Site Plan reviews are “ministerial”, requiring a review and decision by staff unless they are exempt from the site plan review process.

When is a Fire Marshal review required?

The following list summarizes when it is necessary for the Fire Marshal's office to review a project. A “yes” answer to any one of these questions confirms that a Fire Marshal's review is necessary. Note: This review may be required even if Type I Site Plan review is not required.

1. Will there be a change in occupancy or use?
2. Is a building permit required, (other than for a single-family residence or a duplex)?
3. Does the project involve a change in vehicular access to the site?
4. Does the review involve fire flow requirements? For example, will there be an increase in height or interior floor area?
5. Does the review involve other fire protection requirements such as fire sprinkler systems, alarm systems, fire hydrants, etc.?
6. Does the project include new construction involving review of building setbacks?
7. Is the subject site within the Wildland Urban Interface/Intermix Area?
8. Does the review involve any new building construction or review of limitations to a land use?
9. Does the review involve hazardous processes per the Uniform Fire Code, Chapter 80? (Such processes involve hazardous materials, flammable liquid or flammable gases.)

Is a Pre-application Conference required?

No, however an applicant may request a pre-application conference.

How do I start the application process?

The first step is to submit a complete Type I Site Plan Application Form to the Permit Services Center along with the application fees and the required number of copies for all submittal items. (See the attached Submittal Requirement list)

Will I ever get to meet with the staff members who review my project?

Yes. When you submit your application, you will be given a date and time for a **“Type I Review Conference”**. At this conference you will get to personally meet with your Planner and, depending upon the scope of your project, you may also meet with a staff engineer, a Public Works engineer, a Deputy Fire Marshal, a Sheriff’s Deputy, a Building Inspector or Plans Examiner, or a staff member from the Southwest Washington Health District.

As the applicant this conference affords you the opportunity to present your proposal and plans to the staff. For staff, the conference offers an opportunity to ask questions, give guidance, and to ensure the applicant clearly understands the process and regulations, as they will be affecting them.

By the end of the conference, you as the applicant will know whether your project will be approved, approved with conditions, denied, OR, what additional information the staff will need before they can make a decision. (Your project will be placed on hold if additional information is required.)

How does the Type I Site Plan review process work?

The County conducts two application checks to ensure that applications are complete before staff begins their development review process. Prior to accepting an application, the Permit Services staff will conduct a **“Counter Complete”** review of the submittal package.

This initial Counter Complete review ensures that all required submittal items are contained within the package. If each item on the submittal requirement list has been submitted, the application will be accepted for further review. To be Counter Complete, the following items must be submitted:

1. Cover Sheet & Table of Contents
2. Application Form
3. Application Fee
4. Developer’s GIS Packet Information
5. Narrative
6. Authorization to use Site & Support Structure
7. Legal Lot Determination Information
8. Proposed Site Plan
9. Photographic Analysis
10. Preliminary Stormwater Design Report
11. Associated Applications
12. Submittal Copies

Upon acceptance of the application two things will happen immediately. First, the counter person will schedule a Type I Conference for you. This conference will be held within 14 to 20 days from the date your application is counter complete. Second, the counter staff will route the application package (with the conference information) to the review staff.

Within 21 days (or the 14 to 20 days allotted before the Type I Conference) the review staff will conduct a second completeness check, known as the **"Fully Complete"** review. This detailed review ensures that all items submitted have the technical information required for staff to make a decision.

If the application is "Fully Complete" the staff has until the Type I Conference date to review the application. The staff is then required to attend the Conference and explain their decision as well as explain any conditions of approval that the applicant may have to complete. The staff will then have up to 20 days to issue a written decision.

If required technical information or items are missing, the planner will prepare a letter indicating the application is **"Not Fully Complete"**, and deliver it to you at the conference. It will indicate the additional items and/or information required to make the project "Fully Complete". If the requested information is not submitted within 30 days, staff will return the application and refund a portion of the application fee.

Once an application is "Fully Complete", the review staff has 21 days to prepare a written decision that specifies the Conditions of Approval for your project to ensure compliance with all applicable codes and laws.

In all, the issuance of a decision may take up to 42 calendar days from the date a counter complete application is accepted by the Permit Services Center, unless it is placed on hold.

Can I Request an Extension of Time to Submit Additional Information?

Yes. You can submit a written request to extend the decision deadline and submit additional information for consideration with or after the request.

If your application has been deemed "Not Fully Complete" you may also request additional time to submit any information requested.

What kind of public notice is provided?

There is no public notice required for Type I development proposals.

Can the decision be appealed?

The staff's decision may be appealed to the County Hearings Examiner by the applicant or any person or group. An appellant must submit an appeal application and the **\$1,166** fee within 14 calendar days after the written notice of the decision is mailed.

How long is my approval valid?

A preliminary site plan approval shall be valid for a period of five (5) years after approval. During that time, a complete application for final site plan review OR building permit must be submitted. This time limit may be extended where there is an approved phased development or separate development agreements have been approved, (see Clark County Code, Section 40.500.010(B) for more details).

After the Preliminary Site Plan is approved, what is next?

After receiving approval of the preliminary site plan, the applicant may submit engineering construction plans, the final site plan (if necessary), and building permits for review.

Note: Conditions of Approval must be met before you begin your project, occupy your building, or open for business.

When can I apply for a building permit?

Site plan approval is required prior to the issuance of building permits by the Building Division. However, application for building permits may be made at the same time as application for site plan review. Please note: Should the site plan review process require modification to the site plan, you must revise and re-submit your building plans to reflect those changes. Failure to make the appropriate changes may delay your building inspections or it may result in Code Enforcement actions for the failure to comply with the site plan review conditions. Building permit applications are filed with the Building Division in the Permit Services Center.

Please see "Engineering Construction Plan Review" information handout for further information about the final engineering plan and final site plan review process.

TYPE I Wireless Communication Collocation SITE PLAN REVIEW FEES

Non-Residential:	\$1,531
Fire Marshal Review:	\$ 434
Stormwater Review:	\$ 386
Transportation Review:	\$ 395
Lot Determination Fee*:	\$ 200 + \$75 / lot over 2 lots

DEVELOPMENT REVIEW TYPE I SITE PLAN APPLICATION SUBMITTAL REQUIREMENTS

The following checklist identifies information required to be included with the Type I Site Plan Application. All items with a number followed by an underlined space (i.e., **1. ____**) must be submitted before the application will be considered "Counter Complete." All items with a check box (i.e., ☐) must be complete for the application to be determined "Fully Complete."

- 1. ____ COVER SHEET AND TABLE OF CONTENTS** – Each application submittal packet shall contain a cover sheet that includes the applicant's name, address, e-mail address, and phone number, along with the name of the proposed project. A table of contents to provide assistance in locating the various requirements shall follow the cover sheet.
- 2. ____ APPLICATION FORM** - The application form shall be completed and the applicant shall sign at least one original copy in ink.
- 3. ____ APPLICATION FEE** - The fee for a Type I Site Plan review shall accompany the application. Checks are payable to "Clark County Community Development".
- 4. ____ DEVELOPER'S GIS PACKET INFORMATION**

A copy of the "Developer's GIS Packet" shall be submitted with the application. Applicants have the option of requesting their GIS Developer's Packet in PDF format on a CD or posted to one of our FTP sites. Applicants can request their Developer Packets either as paper copy or electronically for \$40.00. Applicants may request the digital version and add a paper copy for an additional \$10.65 plus tax. The Developer's Packet fee increase will take effect on September 1, 2007. To order Developer's Packets, please contact Linda Mattila by phone (360) 397-2391 ext. 4641 or email at themapstore@clark.wa.gov.

The packet includes the following:

- General Location Map;
- Property Information Fact Sheet;
- Arterial Roadway, C-Tran Bus Routes, Parks and Trails Map;
- Elevation Contours Map;
- Photography Map;
- Photography Map with Contours;
- Zoning Map;
- Comprehensive Plan Map;
- Water, Sewer and Storm Systems Map;
- Soil Type Map;
- Environmental Constraints Map; and,
- Quarter Section Map.

5. **NARRATIVE**

A written narrative shall be submitted that addresses the following:

COLLOCATIONS:

- ☐ How the application meets or exceeds each of the applicable approval criteria and standards;
- ☐ How the proposed plan meets the minimum area and dimensions of the base zone;
- ☐ How the issues identified in the pre-application conference have been addressed, and generally, how services will be provided to the site;
- ☐ A comprehensive description of the existing or proposed facility including the technical reasons for the design and configuration of the facility, design and dimensional information, and anticipated coverage of the facility;
- ☐ If camouflage technology is proposed, the applicant shall provide a complete description of the suggested camouflage, including style and materials to be used, a photographic depiction of the proposed facility, and a maintenance plan detailing provisions for the continued effectiveness of the suggested camouflage for the life of the facility;
- ☐ An analysis of the proposal area and discussion of factors influencing the decision to target the proposed location. Such analysis shall include the good faith efforts and measures taken to secure a higher priority location; how and why such efforts were unsuccessful; and how and why the proposed site is essential to meet service demands for the geographic service area; and,
- ☐ The frequency of vehicle trips the proposal could be expected to generate.

6. **AUTHORIZATION TO USE SITE & SUPPORT STRUCTURE**

Documentation that establishes the applicant's right to use the site shall be provided at the time of application by a copy of the proposed lease agreement, easement agreement, license agreement or letter of authorization to use the facility from the owner of the support structure.

7. **LEGAL LOT DETERMINATION INFORMATION**

If the lot is part of a plat, binding site plan, or subdivision, no lot information is required beyond that supplied in the GIS packet. If the application is not part of a plat, binding site plan, or subdivision, the applicant is required to either: a) complete a legal lot determination, or b) submit a sales or transfer deed history dating back to 1969, to include copies of recorded deeds and/or contracts verifying the date of creation of the parcel in chronological order with each deed identified with the Assessor's lot number.

8. **PROPOSED SITE PLAN**

- ☐ The proposed plan shall be drawn to a minimum engineer's scale of 1" = 200' on a sheet no larger than 24" x 36".

The following information shall be clearly depicted on the proposed site plan:

GENERAL INFORMATION

- ☐ Applicant's name, mailing address and phone number;

- ❑ Owner's name and mailing address;
- ❑ Contact person's name, mailing address, and phone number;
- ❑ North arrow (orientated to the top, left or right of page) scale and date;
- ❑ Proposed name of project;
- ❑ Vicinity map covering ¼ mile radius from the development site (not required for rural area plans); and,
- ❑ Area of the site in acres or square feet.

COLLOCATIONS:

Existing Conditions

- ❑ Show the entire parcel, drawn to scale, with property lines, north arrow (orientated to the top, left or right), footprint of existing structures and driveways, parking spaces, abutting streets (name, centerline, curb & sidewalk), and existing fire hydrants;
- ❑ The location of existing wells & septic systems;
- ❑ Location and full width of existing easements for access, drainage , utilities, etc.;
- ❑ The locations of any existing environmentally sensitive areas (e.g. wetlands, water bodies, steep slopes etc.) on the site, as indicated in the GIS materials;
- ❑ Indicate the existing surfacing and features on all portions of the site, such as asphalt, landscaping, lawn, gravel, stormwater swale, etc; (as applicable); and,
- ❑ Elevation plans showing the existing antennae and the height of each as well as any lightning rods (as applicable).

Proposed Improvements

- ❑ Show the location of all proposed structures, driveways and roads, easements. number and layout of proposed parking spaces; (as applicable) and proposed location of fire hydrants;;
- ❑ Landscape plan if landscaping is proposed; and,
- ❑ Elevation plans of proposed site and facility changes.

9. ____ PHOTOGRAPHIC ANALYSIS

A photographic analysis of the proposed site shall be submitted, including a representation of existing conditions and photographic simulations depicting views of any new antennae, support structures or towers.

10. ____ PRELIMINARY STORMWATER DESIGN REPORT

If the project involves the addition or re-development of 2,000-sq. ft. of impervious surfacing in an Urban Growth Area or 5,000-sq. ft. of impervious surfacing outside of an Urban Growth Area, stormwater review will be required for the project.

11. ____ ASSOCIATED APPLICATIONS

Applications associated with the project, to the extent applicable (e.g., floodplain, habitat, shoreline, wetland, variances, etc.) must be submitted prior to or with this application.

12. SUBMITTAL COPIES

The applicant must select Option A or B below and proceed as follows:

Option A:

Submit a **CD** in PDF format, with a paper copy of the full application package. Any special studies shall also be included on the CD. The proposed plans submitted must be scanned to an engineer's scale. The main CD application shall be organized as follows:

- A. The application submittal shall be organized in the same order as the table of contents, with a separate PDF document for each separate item.
- B. The PDF document must be organized into separate files. Each PDF file must be labeled with a number followed by a name (example):
 - 1. Cover Sheet and Table of Contents
 - 2. Application Form
 - 3. Developer's GIS Packet Information
 - 4. etc.

Option B:

- ___ One copy of the main submittal with original signatures, bound by a Jumbo clip or rubber band, and
- ___ Five (5) copies of application package with a full size set of plans.
- ___ Separately bound copy of any special studies (e.g., wetland, floodplain, etc) as identified below:
 - ☐ 1 original and 3 copies - Traffic Study and Road Modification requests
 - ☐ 1 original and 2 copies of all other special studies or permits to include: Critical Aquifer Recharge Areas (CARA) floodplain, geo-hazard, habitat, shoreline, stormwater, erosion control plan, and wetland).
- ___ 2 reduced copies of 11" x 17" for all sheets larger than 11" x 17."

Staff Notes:

- | | |
|----|--|
| 1. | <u>If any of the application materials exceed 11" x 17" in size, please also provide a reduced copy no larger than 11" x 17". Clark County cannot reproduce materials larger than 11" x 17".</u> |
| 2. | _____ |
| 3. | _____ |
| 4. | _____ |
| 5. | _____ |
| 6. | _____ |

Groseclose Water Project

Service Commencement for Groseclose Water Project

Marion, Virginia

April 8, 2005

Today I am pleased to join with Smyth County residents in celebrating the commencement of new public water service for the communities of Groseclose and Atkins. This project represents another significant success in our ongoing work to bring clean drinking water to all Southwest Virginia homes.

Beginning today, 62 homes in the communities of Groseclose and Atkins will for the first time receive publicly provided drinking water. In the coming months, an additional 15 homes will also be added to the service area bringing the total service area from the new water project to 77 homes in the Groseclose and Atkins communities. Previously, residents in these communities had to rely on private wells for their drinking water, many of which were often insufficient. Residents in the area have also endured on various occasions temporary boiling restrictions at their homes to ensure that the water from the private wells was safe for drinking.

In addition to the 77 homes which are receiving the new public water service, the Mountain Empire Regional Airport and five other businesses in the area will also have access to the new public water system, and today's celebration marks a new opportunity for business and industrial development in Smyth County. Currently, the area from the Exit 54 interchange on Interstate 81 to the Wythe County line is underdeveloped. However, this area presents an outstanding location for future residential, industrial and commercial growth due to its proximity to the Airport and Interstate 81. With access to public drinking water now in place, I look forward to working with Smyth County officials in encouraging new development of various kinds in the area which surrounds us today.

The new water system was supported with \$661,906 in federal funds from the U.S. Environmental Protection Agency's Safe Drinking Water Act program which is administered by the Virginia Department of Health. This sum represents the entire cost of the water project.

More than three and one half miles of water lines have been constructed along Lee Highway from the Exit 54 interchange to the Wythe County line, along Rocky Hollow Road and along Nelson Lane. In addition, a pump station has been constructed on Lee Highway to ensure adequate water pressure for the project.

The new public water service which will now be provided to residents of Groseclose and Atkins is a outstanding example of the combined efforts of federal, state and local officials to establish safe and clean public drinking water for our region's residents.

Approximately 20 years ago, barely one-half of Smyth County residents had access to publicly provided drinking water. Since that time, we have actively worked to obtain millions in federal funding to establish new water systems in Smyth County, including more than \$13 million in the past 10 years alone. Today, everyone here can proudly acknowledge that this work on the part of many people has born fruit. Today, 72 percent of all Smyth County homes have access to publicly funded water systems.

I would also like to take the opportunity of these remarks to comment on the next infrastructure project which we are working to fund for the community of Groseclose. In December of 2004, Congress approved my request for a federal appropriation in the amount of \$250,000 to launch a public wastewater system project for Groseclose. Since that time, additional federal funding in the amount of \$346,871 from the Appalachian Regional Commission has been secured. Smyth County is currently seeking additional funding from the Commonwealth of Virginia that will be necessary to construct the new sewer system and hopes to begin construction on the project later this year.

Developing a reliable network of infrastructure for all residents of Smyth County is a task that involves the cooperation and dedication of many individuals. And I want to thank some of those who have been instrumental in the success of the Groseclose water project and for the work they continue to do to establish public wastewater service for the community.

I want to commend Charlie Clark who serves as Chairman of the Smyth County Board of Supervisors and Chairman of the County's Water and Sewer Committee; Harold Slemp, Groseclose representative on the Board of Supervisors; other Members of the Board; and Ed Whitmore, Smyth County Administrator; for all of their diligent work to advance the expansion of Smyth County's water and wastewater systems. This project is another example of the good work they are doing.

I also want to thank Scott Simpson, Smyth County Engineer, and Sally Morgan, the Community and Economic Development Director for Smyth County, who both deserve recognition for their effective work in aid of this project.

I also want to thank Bob Dix and Elsie Evans for their commitment and dedication in bringing a public water system to the community of Groseclose and the Mountain Empire Airport.

Finally, I want to thank my District Administrator, Laura Lee, and my new Project Manager, Courtney Lamie, for their persistent and persuasive work in achieving this success. Their outstanding work has substantially contributed to the success we celebrate today.

Today's ceremony is an example of what can be achieved when citizens and government officials at the local, state and federal levels work together in aid of a common purpose. For that cooperation and successful work in providing for clean and safe public drinking water for the residents of Groseclose and Atkins, I want to commend everyone here and offer special congratulations to the residents and business owners who will be receiving this vital new service.
