

# Data Ingest Activities - TRMM

## Level 0 Ingest Scenario

(Subsystems Involved: INS, MSS, CLS)

| System                                                                                                                                                                                                                                                                 | Operator |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| All of the messages listed below go to one or more log files which may be viewed by operations personnel by monitoring the display or by browsing the log files.                                                                                                       |          |
| <b>1) SDPF sends Data Availability Notice (DAN) to Ingest (LaRC and MSFC). Receipt of the DAN is logged. This process is assigned a request ID, and from this point forward the event log and status display will contain information related to this transaction.</b> |          |

# **Data Ingest Activities - TRMM Level 0 Ingest Scenario (cont.)**

| <b>System</b>                                                                                                                                                                                                                  | <b>Operator</b>                                                                                                        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>- Ingest generates a corresponding ingest request and stores the request on a prioritized list. A summary of the DAN contents indicating data source, number of files, and location of data is placed in the event log.</b> | <b>- Ingest Tech. may monitor the status display showing subsequent ingest request processing and cancel requests.</b> |
| <b>- Acknowledges the request (DAA) and a copy of the DAA indicating readiness to ingest data is logged.</b>                                                                                                                   |                                                                                                                        |
| <b>2) Ingest function schedules and performs data transfer. Devices allocated to the data transfer are identified. Data transfer status/ recoverable errors indicated in the event log.</b>                                    |                                                                                                                        |

# Data Ingest Activities - TRMM

## Level 0 Ingest Scenario (cont.)

| System                                                                                                                                                                                                                                            | Operator |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| 3) No data conversion required for SDPF Level 0 data                                                                                                                                                                                              |          |
| 4) Ingest function extracts SDPF Level 0 metadata and checks selected metadata parameters (e.g., SFDU header information). Status of metadata parameter check is written to event log.                                                            |          |
| 5) Ingest function requests to store SDPF Level 0 data and metadata in the Level 0 data repository. Data server insert request generated. Subscription (if any) triggered to indicate availability of data when the archive process is completed. |          |

The State Education Department

**ACCOUNTABILITY STATUS REPORT:  
ENGLISH LANGUAGE ARTS, MATHEMATICS, SCIENCE,  
AND GRADUATION RATE  
for  
OAK STREET SCHOOL  
in  
PLATTSBURGH CITY SD**

**2004-05 Accountability Status:  
School In Good Standing**

**Title I Funding**

**This school received Title I funding in:**

**2002-03: Yes**

**2003-04: Yes**

**2004-05: Yes**

## School Accountability Status Categories

The list below defines the school status categories under New York State's school accountability system, which is divided into a Federal Title I component and a State component. A school that does not receive Title I funding in a school year does not have a federal status in that year. Schools receiving Title I funds that are not in good standing must provide school choice for their students; those in need of improvement year 2 and beyond must also provide Supplemental Education Services to eligible students. Other consequences for schools not in good standing can be found at: [www.emsc.nysed.gov/deputy/nclb/accountability/siinfo.htm](http://www.emsc.nysed.gov/deputy/nclb/accountability/siinfo.htm). To be removed from any improvement status, a school must make Adequate Yearly Progress (AYP) in the grade and subject for which it was identified for two consecutive years, or in the case of a School Under Registration Review, achieve the performance targets established for the school by the Commissioner.

**School in Good Standing:** A school is considered to be in good standing if it has not been identified as a School in Need of Improvement, Requiring Corrective Action, Planning for Restructuring, or Requiring Academic Progress, or as a School Under Registration Review.

**School Requiring Academic Progress:** Under the State component of New York's accountability system, a school that does not make AYP in the same grade and subject for two consecutive years is considered a School Requiring Academic Progress (Year 1) for the following year. In each succeeding year that the school fails to make AYP, the year designation is incremented by one.

**School in Need of Improvement (Year 1):** A school that has not made AYP for two consecutive years in the same grade and subject while receiving Title I funds is considered a School in Need of Improvement (Year 1) for the following year.

**School in Need of Improvement (Year 2):** A School in Need of Improvement (Year 1) that does not make AYP in the grade and subject for which it was identified while receiving Title I funds is considered a School in Need of Improvement (Year 2) for the following year.

**School Requiring Corrective Action:** A School in Need of Improvement (Year 2) that does not make AYP in the grade

and subject for which it was identified while receiving Title I funds is considered a School Requiring Corrective Action for the following year.

**School Planning for Restructuring:** A School Requiring Corrective Action that does not make AYP in the grade and subject for which it was identified while receiving Title I funds is considered a School Planning for Restructuring for the following year.

**School Restructuring:** A School Planning for Restructuring that does not make AYP in the grade and subject for which it was identified while receiving Title I funds is considered a School Restructuring for the following year.

**School Under Registration Review (SURR):** Schools that are farthest from the State standard and that have been determined by the Commissioner to be most in need of improvement are Schools Under Registration Review. These schools must achieve performance targets specified by the Commissioner of Education in their area(s) of identification within a prescribed timeframe or risk having their registration revoked by the Board of Regents.

## Elementary-Level English Language Arts

Definitions of terms, such as Performance Index and Effective Annual Measurable Objective (AMO), are in the glossary, which is the last page of this report.

**For a school or a district to make Adequate Yearly Progress (AYP) in 2003–04, every accountability group must make.**

**For an accountability group to make AYP in 2003–04, it must**

1. meet the 95 percent participation requirement (**2003–04 Participation**), and
2. either meet its Effective AMO or make safe harbor (**2003–04 Performance** and **Standards**).

To meet the participation requirement, 95 percent of the grade 4 enrollment in each accountability group with 40 or more students must

be tested. To meet the Effective AMO, the Performance Index for each group with 30 or more continuously enrolled students must equal or exceed the Effective AMO. To make safe harbor, the Performance Index of each of these groups must equal or exceed its ELA safe harbor target *and* the group must meet the elementary-level science qualification for safe harbor. (See the elementary-level science page of this report for further information on meeting the science qualification for safe harbor.)

**ELA Safe Harbor Targets:** The elementary-level 2003–04 ELA Safe Harbor Target is calculated by using the following equation:  $2002-03\ PI + (200 - \text{the } 2002-03\ PI) \times 0.10$ . The 2004–05 ELA Safe Harbor Target is calculated by using the following equation:  $2003-04\ PI + (200 - \text{the } 2003-04\ PI) \times 0.10$ . The 2004–05 target is provided for groups whose PI was below the Effective AMO in 2003–04.

| Accountability Group           | 2003–04 Participation* |                              | 2003–04 Performance**                   |                   | 2003–04 Standards |                        |                                               | Made AYP in ELA in 2003–04 | 2004–05 ELA Safe Harbor Target |
|--------------------------------|------------------------|------------------------------|-----------------------------------------|-------------------|-------------------|------------------------|-----------------------------------------------|----------------------------|--------------------------------|

| Economically Disadvantaged     | 18                     |                              | 16                                      |                   |                   |                        |                                               |                            |                                |
| Final AYP Determination        |                        |                              |                                         |                   |                   |                        |                                               | YES                        |                                |

\*Students who were excused from testing for medical reasons are not included in the enrollment count. If the participation rate of an accountability group fell below 95 percent in 2003–04, the enrollment shown is the sum of 2002–03 and 2003–04 enrollments and the percent tested is the weighted average of the participation rates over those two years.

\*\*For schools with fewer than 30 continuously enrolled tested students in 2003–04, data for 2002–03 and 2003–04 were combined to determine counts and PIs.

\*\*\*Groups with a “\*\*\*” are not required to meet the science qualification for safe harbor to make safe harbor in English and mathematics because fewer than 30 students in the group were administered the science test.

**State accountability status in elementary-level English language arts: School In Good Standing**

**Title I accountability status in elementary-level English language arts: School In Good Standing**

## Elementary-Level Mathematics

Definitions of terms, such as Performance Index and Effective Annual Measurable Objective (AMO), are in the glossary, which is the last page of this report.

**For a school or a district to make Adequate Yearly Progress (AYP) in 2003–04, every accountability group must make AYP.**

**For an accountability group to make AYP in 2003–04, it must**

1. meet the 95 percent participation requirement (**2003–04 Participation**), and
2. either meet its Effective AMO or make safe harbor (**2003–04 Performance** and **Standards**).

To meet the participation requirement, 95 percent of the grade 4 enrollment in each accountability group with 40 or more students must

be tested. To meet the Effective AMO, the Performance Index for each group with 30 or more continuously enrolled students must equal or exceed the Effective AMO. To make safe harbor, the Performance Index of each of these groups must equal or exceed its math safe harbor target *and* the group must meet the elementary-level science qualification for safe harbor. (See the elementary-level science page of this report for further information on meeting the science qualification for safe harbor.)

**Math Safe Harbor Targets:** The elementary-level 2003–04 Math Safe Harbor Target is calculated by using the following equation:  $2002-03 \text{ PI} + (200 - \text{the } 2002-03 \text{ PI}) \times 0.10$ . The 2004–05 Math Safe Harbor Target is calculated by using the following equation:  $2003-04 \text{ PI} + (200 - \text{the } 2003-04 \text{ PI}) \times 0.10$ . The 2004–05 target is provided for groups whose PI was below the Effective AMO in 2003–04.

| Accountability Group           | 2003–04 Participation* |                              | 2003–04 Performance**                   |                   | 2003–04 Standards |                         |                                               | Made AYP in Math in 2003–04 | 2004–05                 |

| Limited English Proficient     |                        |                              |                                         |                   |                   |                         |                                               |                             |                         |
| Economically Disadvantaged     | 16                     |                              | 15                                      |                   |                   |                         |                                               |                             |                         |
| Final AYP Determination        |                        |                              |                                         |                   |                   |                         |                                               | <b>YES</b>                  |                         |

\*Students who were excused from testing for medical reasons are not included in the enrollment count. If the participation rate of an accountability group fell below 95 percent in 2003–04, the enrollment shown is the sum of 2002–03 and 2003–04 enrollments and the percent tested is the weighted average of the participation rates over those two years.

\*\*For schools with fewer than 30 continuously enrolled tested students in 2003–04, data for 2002–03 and 2003–04 were combined to determine counts and PIs.

\*\*\*Groups with a "\*\*\*\*" are not required to meet the science qualification for safe harbor to make safe harbor in English and mathematics because fewer than 30 students in the group were administered the science test.

## Elementary-Level Science

Definitions of terms, such as Progress Target and Adequate Yearly Progress (AYP), are in the glossary, which is the last page of this report.

**Made AYP in Science in 2003–04:** For a school or a district to make AYP in science, the Performance Index (PI) for the “All Students” group must equal or exceed the State Science Standard or the Science Progress Target.

**State Designated Level (SDL):** The score that students taking the elementary-level science test in 2002–03 must have equaled or exceeded on the written portion of the test to have met the State Science Standard.

**Qualification for Safe Harbor in Elementary-Level ELA and Math:** For an accountability group to be considered Qualified for Safe Harbor in Elementary-Level ELA and Math, the PI must equal or exceed the State Science Standard or the Science Progress Target in elementary-level science for that group. Groups with fewer than 30 students tested in elementary-level science are not subject to this qualification criterion.

**Science Progress Targets:** The elementary-level 2003–04 Science Progress Target is calculated by multiplying the 2002–03 Percent At or Above SDL by two and then adding one point. The 2004–05 Science Progress Target is calculated by adding one point to the 2003–04 PI. The 2004–05 target is provided for groups whose PI was below the State Science Standard in 2003–04.

\*For schools with fewer than 30 continuously enrolled students in 2003–04, data for 2002–03 and 2003–04 were combined to determine counts and Performance Indices.

**State accountability status in elementary-level science: School In Good Standing**

**Title I accountability status in elementary-level science: School In Good Standing**

## Glossary

**Accountability Cohort:** The 2000 school accountability cohort consists of all students who first entered grade 9 in the fall of 2000, and all ungraded students with disabilities who reached their seventeenth birthday in the 2000–01 school year, who were enrolled on October 2, 2002. Students who transferred to programs leading to a high school diploma or high school equivalency diploma were not included in the 2000 school accountability cohort. The 2000 district accountability cohort consists of all students in each school accountability cohort plus students who transferred within the district after BEDS day *plus* students who were placed outside the district by the CSE or district administrators and who met the other requirements for cohort membership. Cohort is defined in Section 100.2 (p) (8) of the Commissioner's Regulations.

**Adequate Yearly Progress (AYP):** Adequate Yearly Progress (AYP) indicates satisfactory progress by a district or a school toward the goal of proficiency for all students.

**Annual Measurable Objective (AMO):** The Annual Measurable Objective (AMO) is the PI value that signifies that an accountability group is making satisfactory progress toward the goal that 100 percent of students will be proficient in the State's learning standards for English language arts and mathematics by 2013–14. The AMO will be increased in regular increments beginning in 2004–05 until it reaches 200 in 2013–14. (See Effective AMO for further information.)

**Continuously Enrolled Students:** Students enrolled in the school or district on BEDS day (usually the first Wednesday in October) of the school year and until the day of testing.

**Effective Annual Measurable Objective (Effective AMO):** The Effective Annual Measurable Objective (Effective AMO) is the PI value that each accountability group within a school or district is expected to achieve to make AYP. The Effective AMO is the lowest PI that an accountability group of a given size can achieve in a subject for the group's PI not to be considered significantly different from the AMO for that subject. If an accountability group's PI equals or exceeds the Effective AMO, it is considered to have made AYP. A more complete definition of Effective AMO and a table showing the PI values that each group size must equal or exceed to make AYP are available at [www.emsc.nysed.gov/irts](http://www.emsc.nysed.gov/irts).

**Graduation-Rate Cohort:** Graduation-rate cohort for each year includes all students in the accountability cohort in the previous year plus all students excluded from that accountability cohort solely because they transferred to a general education development (GED) program. Certain students with severe disabilities and new immigrants were excluded from the 1999 graduation-rate cohort.

**Graduation-Rate Standard:** The criterion value that represents a minimally satisfactory percentage of cohort members earning a local diploma. The State Graduation-Rate Standard is 55 percent. The Commissioner may raise the Graduation-Rate Standard at his discretion in future years.

**Performance Index (PI):** A Performance Index is a value from 0 to 200 that is assigned to an accountability group, indicating how that group performed on a required State test (or approved alternative) in English language arts, mathematics, or science. Student scores on the tests are converted to four achievement levels, from Level 1 (indicating no proficiency) to Level 4 (indicating advanced proficiency). ***At the elementary and middle levels, the PI is calculated using the following equation:  $100 \times [(Count\ of\ Continuously\ Enrolled\ Tested\ Students\ Performing\ at\ Levels\ 2,\ 3,\ and\ 4\ +\ the\ Count\ at\ Levels\ 3\ and\ 4) \div Count\ of\ All\ Continuously\ Enrolled\ Tested\ Students]$ . At the secondary level, the PI is calculated using the following equation:  $100 \times [(Count\ of\ Cohort\ Members\ Performing\ at\ Levels\ 2,\ 3,\ and\ 4\ +\ the\ Count\ at\ Levels\ 3\ and\ 4) \div Count\ of\ All\ Cohort\ Members]$ .*** A list of tests used to measure student performance for accountability is available at [www.emsc.nysed.gov/irts](http://www.emsc.nysed.gov/irts).

**Progress Target:** For accountability groups below the State Standard in science or graduation rate, the Progress Target is an alternative method for making AYP or qualifying for safe harbor in English language arts and mathematics based on improvement over the previous year's performance.

**Safe Harbor:** Safe Harbor provides an alternative means to demonstrate AYP for accountability groups that do not achieve their Effective AMOs in English or mathematics.

**Science Standard:** The criterion value that represents a minimally satisfactory performance in science. In 2003–04, the State Science Standard at the elementary and middle levels was a PI of 100. The Commissioner may raise the State Science Standard at his discretion in future years.

**NOTE 4**    **CASH IN DURING YEAR**

Cash transferred into investment accounts at The Northern Trust during the current fiscal year.

**NOTE 5**    **CASH OUT DURING YEAR**

Cash transferred out of investment accounts at The Northern Trust during the current fiscal year.

Today at Mercy Corps, the Action Center hosted a free lecture by Jack Sim, founder of the World Toilet Organization. For over ten years, Sim has been drawing attention and funding to the collaborative work by NGOs, faith groups, governments and academics toward solving a pressing problem: the 2.6 billion people on earth who do not have access to safe sanitation and a clean toilet every day.

Congressman Blumenauer opened the public lecture with an update on his pending legislation, [HR 3568 The Senator Paul Simon Water for the World Act](#)

. “Every 20 seconds, a child dies from an illness connected to dirty water, and today alone 200 million hours will be spent, mostly by women and girls, collecting water,” Congressman Blumenauer said. “But we know how to solve this problem, and it’s an area of rare, bipartisan support. Passing this bill will impact the poorest of the poor throughout the world on all the things we’re here to talk about – health, school attendance, food security, nutrition, environmental quality and economic development.”

Jack Sim, Rep Blumenauer, and Dr. Charles B. Maclean, Senior Health Care Fellow at the

Gladys Taylor McGarey Medical Foundation
